What world do you want to live in ?

O Peace Logic

the connecting, life and people friendly level

Basic characteristic of the culture of peace:
The human being is seen as a subject,
with all his strengths and weaknesses

- **Equality of all people,**
  Respect, attention and appreciation

- **Being independent - self-worth is largely**
  independent of the outside world

Prerequisite is the self-acceptance,
the recognition, naming and allow of
feelings and needs

this results in:

- **Live self-determined**

- **Everyone may be as he is - tolerance**

- **Self-responsibility**

- **Inner joy determines life**

- **Action - individual: everyone has many sides**

- **Respect for all people**

- **Empathy*² - Acceptance**

- **Integrate - Togetherness**

- **Reparation - Reconciliation**

- **Non-violence - balance**

- **Listening - Connecting Openly**

- **Good constructive cooperation**

- **Mutual trust**

- **Freedom**

  *² Empathy = The ability and willingness to recognize
  and understand sensations, thoughts, emotions,
  motives, and personality traits of another person.

O Security/violence logic

the separative, anti-life and anti-human level

Basic characteristic of the culture of violence:
The human being is seen as an object of
evaluations, expectations and intentions

- **Value of people according to money, power,**
  status, education, performance, appearance,etc.

- **Necessary confirmation from outside -**
  Adaptation and courting recognition

Cause is the self-alienation,
that cutting off of feelings and needs
or separation of body, mind and soul

this results in:

- **Submission and conformity (believing in authority)**

- **Paternalism and manipulation**

- **Victim thinking - blaming others**

- **inner Fears determines life**

- **Equating individual and action**

- **Enemy identification**

- **Dehumanization - Distance**

- **Exclude - Be Separate**

- **Punish - Revenge**

- **Violent - against self and others**

- **Being right - often doctrinaire*³ thinking**

- **Ruthless exploitation**

- **Fundamental distrust**

- **Monitoring**

  *³ doctrinaire = belief system and views that are
  presented as generally valid and from which no
  deviation is allowed or which are binding.
